PROFESSIONAL EXPERIENCE

Robertson & Company **Toronto, ON**

Researcher and Data Analytics Specialist Intern Sep 2024 – Apr 2025

- Contacted over 100 software companies to gather data, contributing to the design of a new workforce management platform.
- Worked closely with cross-functional teams to align data management practices with organizational goals.
- Used Power BI and Microsoft Excel to generate 3+ detailed data reports weekly, analyzing recruitment trends and performance metrics.
- Presented well-structured reports using PowerPoint and Word to stakeholders, effectively communicating data insights and strategic recommendations.

Trent University **Peterborough, ON**

Student Housing - Admissions and Occupancy Assistant Sep 2023 – Apr 2024

- Proficiently managed student housing data using SQL queries in the applicant management system, ensuring accurate and up-to-date information for the admissions and occupancy team.
- Conducted data analysis using Microsoft Excel to support best practice research related to admissions and occupancy processes, leading to actionable insights and recommendations.
- Maintained data accuracy and confidentiality for 10,000+ student records within the student housing applicant management system.
- Played a pivotal role in maintaining the integrity of the Student Housing Applicant Management System by addressing basic database information concerns from students and effectively troubleshooting issues.

VOLUNTEER EXPERIENCE

Enactus Canada **Peterborough, ON**

VP of Events Sep 2023 – Aug 2024

- Successfully managed and executed a diverse range of events, including fundraisers, workshops, and community engagement activities.

- Led a team of event coordinators, ensuring seamless coordination, clear communication, and efficient task delegation.
- Demonstrated exceptional organizational skills by overseeing all event logistics, from venue selection and catering to marketing and promotion.

Trent Business Student Association

Peterborough, ON

Third Year Representative

Sep 2023 – Aug 2024

- Established partnerships with local businesses and organizations for potential collaboration.
- Led cross-functional teams in planning, executing, and monitoring projects within budget and on schedule.
- Collaborated with other club executives to ensure alignment of events with the club's broader goals and mission.

PRODUCT AND PROJECT EXPERIENCE

Product: **FaceScan-Express**

- Created a codebase that accepts images as input, employing sophisticated algorithms for precise facial recognition within the images.
- Implements webcam footage to detect moving objects in real-time and records timestamps corresponding to identified movement occurrences within the environment.
- Obtained the necessary skills and knowledge to create this project by following various online courses.
- Tools: **Python**

Product: **Dolsy**

- Independently mastered Solidity through self-guided learning and online tutorials to craft an ERC-20 token named “Dolsy”.
- Deployed the token on the Sepolia network, validating the contract creation process on Etherscan for transparency and security assurance.
- Tools: **Etherscan, Solidity**
